

# Institutional Knowledge Map (KMAP.arizona.edu)

KMAP Team | Research, Innovation and Impact (RII)

**KMAP** helps students, faculty members, researchers, and administrators to explore the university's knowledge landscape.

### Interactive Interface

**Find researchers whose interests match technical texts:**

- Filter based on college and position
- Supports long text, keywords, call for papers, etc.

### Researcher connection to geo-locations

- Select type of research activities
- Select location to see relevant UA researchers

### Researcher

**Explore researchers and their collaborators**

- Find collaborators and research activities
- Look recent grants, publications, and research expertise

### Department

**Explore internal collaboration of dept**

- Display all researchers of a department in a *country*
- Summary of the department

### Search

**Find Researchers with research interest**

- Advance NLP techniques to matched keyword, research interest
- Uses all the research activities to rank researchers

### Overlays

**Understand bigger picture as map overlay**

- Correlate multidimensional information
- Funds, citations, h-index, disclosure, and patents overlays are available

## KMAP FAQ

- Can I add myself to the map? Ans: Yes
- Can I upload my data/research profile? Ans: Yes
- Can we use the KMAP API? Ans: Yes
